Mr. B. G. Waller, Chief Negotiator, is on the ground and will begin today the procedure necessary to acquire the land in Area "A"—the cantonment area of the Grenada Triangular Division Camp. This is definite, no fooling, and no dope from the latrine.

This means that the camp WILL be built in the area roughly bounded as follows: on the north by an east and west line thru the old 51-L C. crossing; on the west by new 51 Highway; on the south by an east and west line a short distance north of Duck Hill, and on the east by the hill line.

We have the following definite information about the contracts let and to be let, the time necessary to finish and the names of the contractors:

It is a reasonable assumption that the landowners in the reservation, outside Area "A", will have time to make and gather their crops, for it is unlikely that anything can be done in that outside area before gathering time.

We received a long, interesting letter Wednesday afternoon from the FSA. As we are getting out our paper early this week, we have no space to publish it and, besides that, we have turned the FSA over to the Farm Bureau.

Congratulations to Miss Ima Johnson, one of the "aint they sweets" who will graduate on Wednesday next. After graduation, she will go to Canton.

Attention is invited to the large number of tracts of land for sale, listed in our classified column. The old lady has 360 acres of delta land that she is not married to.

We wrote Professor Eugene McGahey for a picture of the G. S. Senior Class, and for information concerning the commencement there, but have received no reply. Hope you can get the information in early next week. Professor.

One last word about the FSA. I do not know anything about the FSA in other counties and other states. From my position as Chairman of the Farm Debt Adjustment Committee, which I filled several years, it is my considered opinion that it was as rotten as hell in Grenada county. I do know too that the Comptroller General of the United States declared there was no law for the purchase by the FSA of huge tracts of land for collective, communistic farms.

Next Thursday afternoon at 3:30 o'clock, the members of the UDC will meet with Miss Jane Young in a Memorial Service honoring the gallant Confederate dead. Following this meeting, people whose Confederate kinsmen are buried in the local cemeteries are invited to join the UDC members, bringing wreaths if possible, and repair with them to the graves of our hallowed Confederate dead, there to place wreaths (decorated with miniature Confederate flags provided by the UDC) on the graves.

Tom Fielder from Arkansas is visiting his folks in Grenada.

The City and County should proceed very cautiously in making any UNNECESSARY commitments based upon the temporary population increase to the army camp. We folks who live here all of the time do not wish a ghost town to remain after the war.

Our soldiers in this war would make us old veterans look like something the cats drug from north of the Feavine. They have well-fitted clothes, and, in every way, are cared for better than we were.

Those who talk of a short war must believe that we are going to lose. At the present time "things" are decidedly against us. The trend will have to change before we begin to talk of early peace.

The street corner strategists talk of an invasion. The English Channel is just as wide one way as it is the other. We must depend upon our leaders, and hope for the best.

A good many Episcopalians went to the Presbyterian Church Sunday. Brother Liles was in Florida.

No, thank you, if twenty thousand people come here as temporary residents, the Grenada County WEEKLY will remain a weekly newspaper. I had a slight taste of getting out a daily newspaper with weekly equipment. No more for me. Life is too short.

"West Ward"

(Mrs. W. W. W.)

It is singular how long the rotten will hold together, provided you do not handle it roughly.

We have a condition on Commerce Street in Grenada, which reaches its zenith in drinking, fighting, and rascality on Saturday night reaching into the morning hours of Sunday. Negroes congregate at "Sue's and Hazel's" place, at the "Cafe" at "Mary's" Cafe" on Pearl and are as thick as flies on darkened side streets—and very little of the decent is noticeable. For at least a generation now this rotten condition of life among a certain set of negroes continues after all decency and good have ceased, and those who are of this class, should be told that unless they are destined of becoming better citizens, to get out. All of us remember when the City of Memphis issued orders to the criminal and lazy negroes to get out of town. Grenada had some of that set to come here, according to reports from Grenada negroes who resented them.

On Saturday night last, jealousy flared between two young women in "Hazel and Sims" place and Annie Sue stabbed "Futheyville" through the heart. "Futheyville" died on the steps of this filthy dive before a doctor could be called. The murderer is in jail.

The common gossip among the good negro citizens is that—"Annie Sue will get off all right—the law don't do nothing to you no more for killing—they do more to you if you're caught selling whiskey."

All Grenada citizens interested in our community should do something about this condition. If you do not take my word seriously go for a walk down Pearl Street on Sunday afternoon, continue your investigation to 51 Highway where Commerce Street lays. See the swaggering, boisterous, drinking negro women and men as they crowd these places. Look in the door and see couples swaying and caressing to "Sea Bird" "Juke" Box music—see the young daughters and granddaughters of good negro citizens standing about awaiting a nod or whistle from some of the flashy dressed negroes who are "taking over" down about Commerce. Again let me say, it is singular how long the rotten will hold together provided you do not handle it roughly.

For your own sake and for the future see to it that the law is respected in Grenada before it is too late.

"Johnnie" Liegh Completes His Course

News has been received from the Signal Corps School of the U. S. Army at Fort Monmouth, N. J., that 1st Lt. John M. Leigh, formerly with the power company in Grenada, had completed his course there and will receive his diploma from the commandant of that school on April 20.

Congratulations, John

Additional Boys Leave For Aircraft Industries

The Aircraft Sheet Metal and Riveting School, a division of the Vocational Department of Grenada High School, has been successful in placing practically all trainees completing their course of study here. Approximately thirty have gone to work with Glenn L. Martin, Aircraft Corporation. Several are being placed elsewhere. Boys are leaving for industry at the rate of five or more weekly.

Girls have been taken into the classes and are showing an adaptability to the work that is surprising. Several will be completing their work within the next several weeks and will be recommended to aircraft industry.

Boys, especially, finishing school, and between the ages of seventeen and twenty are invited to make application with your local employment service, or with the office here for enrollment in one of the classes. Men 3-A draft classification are invited to enroll. Our boys are making good at the aircraft factories and jobs are awaiting others with the necessary training. Make application at an early date and help build an air force to whip the Axis.

The following are the latest to receive notices to report to Baltimore to work: Lynn Chapuis, Harvey Carter, Joseph Aldread, Arthur McKinney and Clifton Austin. Sam Moosehead, Avery Bennett, J. Foster Bailey, Carl Cunningham and W. E. Holloman, the latter to Fisher Aircraft Division, Memphis, Tennessee.

The law authorizing the creation of a Soil Conservation District provides that the result of the election shall be published. It may have been published, but I have not seen the figures.

1942 GRADUATING CLASS HOLCOMB CONSOLIDATED SCHOOL

Top Row Left to Right: Jack Hayden, Wayne Orzan, Lucille Shaw, Willie Paul Childs, Edna Jackson, John Little, Julia Edwards, Dorothy Tingle.

Bottom Row Left to Right: Supt. A. Y. McBride, Grover Vance, Agnes O'Bryant, Ruth Childs, Bobby Clark, Ethel Cotts, Jimmie Tingle, Martha Goodman, Virginia Jackson, Luther Harris, Jr., Merle Bell, Rosa Nell Latham.

The commencement exercises of the Holcomb Consolidated School, of which

Mr. A. Y. McBride is Superintendent, and of which Mr. W. E. Cresswell, Mrs. F. B. Scott and Mr. A. W. Hammons are Trustees, will be more simple this year than usual on account of war

conditions.

Rev. A. W. Bailey, pastor of the Methodist Church of Holcomb, will deliver the Commencement Sermon on Sunday evening, April 19th. The baccalaureate address will be delivered by Hon. Thomas G. Abernethy on Monday

evening, April 20th.

The senior class of 1942 is the largest on record. The total attendance has been greater by 25 pupils than for any previous year.

Miss Ruth Childs is the Valedictorian of her class.

Buy War Stamps and Bonds Now

(Mrs. W. W. W.)

The Woman's Club of Grenada is sponsoring booths to be located on the Square in Grenada where war bonds and stamps will be sold. Please read the notice in this issue to that effect. Many citizens do not have sons or even relatives in the armed forces and this is one way in which they can help win the war. Let us all rededicate ourselves to the service of our country and let the buying of war bonds and stamps become a weekly habit. Let the Axis hear from every town in America, through Bond and Stamp purchase, just what we are planning for them. Remember to buy War Bonds and Stamps Saturday and watch local newspaper reports on sale.

A program is to be presented at 10 o'clock Saturday morning when sales begin at the booths, so plan to be on the Square and buy a bond or stamps from these patriotic women who are striving to help Uncle Sam pay the war bill.

Election For New Mayor Called For May 7th

The City Council authorized the City Council, during which only matters of vital importance were attended to, on Monday night ordered an election to be held on Thursday, May 7, to fill the seat left vacant by the untimely death of Mayor R. W. Sharp who died Sunday morning.

Doak Drafted As Mayor For a Month

Following the death of Mayor R. W. Sharp on Sunday, it developed that the mayor protom, C. A. Perry, was seriously ill in the hospital and unlikely to be able to serve before a new mayor could be elected and seated. The City Council at its brief meeting Monday night drafted Mr. Doak as Mayor of the City of Grenada for the term which ends soon after the special election called for May 7th.

Mr. Doak, a 53-year old native of Grenada, is head of the 75 year old hardware firm of Doak Hardware, a director in Grenada Bank, the Senior Warden in All Saints Episcopal Church, a member of Rotary and is universally respected for his honor and ability. He is also a veteran of World War No. 1.

We acknowledge with thanks a renewal from the good looking Mrs. Clyde Best of Scobey.

I have already put out two "furnishings" and have not a seed out of the ground, unless grass seed are counted.

A good many people of influence think, like I do, that such a district is not necessary.

C. V. McKell Leaves Grenada; Cliff Johnson Returns

Effective this week Mr. C. V. McKell who has been District manager of the Mississippi Power and Light Company in Grenada for nearly three years, was promoted to the position of the assistant to the manager and will henceforth be located in Jackson. His family will remain here until the close of school. Mr. McKell said this is not the usual bull and tripe usually employed.

He has made a host of friends in Grenada, and these friends are regretful that his useful stay here has been cut short. He was a Deacon in the Presbyterian Church, a member of the Rotary, a participant in almost every civic enterprise that was established, and took Pete LaGrone's place around the table at the Ferdinand Club. Perhaps his greatest contribution to community betterment was his useful and sustained work with the Boy Scouts.

Mr. McKell will be replaced as District manager by Mr. Cliff Johnson who was most recently manager at Indiana, but Cliff cut his eye teeth here.

The King is dead. Long live the King.

Play Ground For Pre-School Age Children

(Mrs. W. W. W.)

The Woman's Club of Grenada is sponsoring a play ground for children who are too young to be registered for public school attendance. They declared themselves in favor of the play ground project at their meeting last week and voted \$25.00 to start the fund to buy play ground equipment. Mr. Will Hoffman is donating the use of the fine large vacant lot, on Line Street, located between the George and Perry homes.

Mr. Art Quantrell, temporary chairman of the group of mothers interested in this project is calling a meeting at 2:30 Friday afternoon and urges all mothers of pre-school age children to come to this meeting in order that plans may begin functioning. Remember the time, Friday afternoon at 2:30 at the Community House. Be sure to attend this meeting.

School Acquires Pressgrove Property

The City Council authorized the City School Board to proceed with the acquisition of the lot (owned by Mrs. R. Pressgrove) at the southeast corner of the present Grammar School property. The School Board anticipates the necessity of erecting additional quarters for the expected influx of children with the camp construction people. The consideration was \$25,000.

Bring your printing to the place where you bring your free publicity dope. At the present time, a publisher can not get out a decent paper with the revenue from advertising and from subscriptions. He just HAS to have additional income from job printing.

If you have a boy in the service and wish him to vote in the August primaries, go to Charlie Worsell and get the proper blanks to send him. The boy of course must be 21, or must reach his 21st birthday by election time.

Mayor Robert William Sharp Died Here Sunday Morning

Mayor Robert William Sharp of Grenada died Sunday morning, April 12, 1942, at 7:30 a.m. He experienced a heart attack.

Mr. Sharp was the son of Mr. and Mrs. Dr. and Mrs. R. W. Sharp, natives of Wall Hill, Marshall County, Mississippi. He was born in Wall Hill on November 20, 1873. He received the education that the times and community afforded and moved here at the time his father, the late Dr. Sharp, moved to Grenada in 1903, when he became associated with the late Walter Garner in the furniture business. In 1919, he bought out the interest of Mr. Garner, from which time until the dissolution of the firm in 1931, it was known as Sharp Furniture Company. He was married three times: first to the maid of Postmaster Donald Sharp, second to Miss Bessie Phelan of Grenada, to which union three children, Mrs. Eldridge Parks of Drew, Miss. Bessie Phelan Sharp of Monroe, Louisiana, one brother, the below Dr. J. S. Sharp, of Grenada; and three sisters, Mrs. J. A. Roane and Miss Bird Sharp of Grenada and Mrs. Andrew House, of Texarkana, Ark.

To the bereaved members of the family, sympathy is expressed.

Funeral services were conducted at the Methodist Church Monday afternoon by Rev. W. L. Robinson, pastor of that church, after which his body was carried to the Grenada cemetery and interred. In honor of his memory, most of the business places of Grenada closed during the process of the interment. The City Council, whose scheduled regular meeting was that night, transacted only the very essential matters and adjourned in honor of him. The beautiful flowers and the large concourse of people who went to pay their final respects to their departed friend showed unmistakably how Grenada people felt toward the deceased.

Surviving him are his widow, two sons, R. P. Sharp of Grenada and Bobby Sharp of Ole Miss; two daughters, Mrs. Eldridge Parks of Drew, and Miss Bessie Phelan Sharp of Monroe, Louisiana; one brother, the below Dr. J. S. Sharp, of Grenada; and three sisters, Mrs. J. A. Roane and Miss Bird Sharp of Grenada and Mrs. Andrew House, of Texarkana, Ark.

To the bereaved members of the family, sympathy is expressed.

Gore Springs H. D. Club Met April 9th.

On April 9th the H. D. Club held its regular monthly meeting in the school auditorium with 20 members and five visitors present.

Meeting was called to order by singing, followed by scripture reading by Mrs. Neely and repeating the Lord's Prayer by all.

Meeting was then turned over to Mrs. Neely and she in her charming way acted as chairman, introducing the speakers who were Mr. Bebbison and Mr. Stanley, who made fine talks on poultry and eggs and the marketing of them.

Recreational leaders then took charge and a contest with jelly beans was enjoyed. Mr. Bennett proved to be the one receiving the black bean.

Then both visitors and members enjoyed an egg hunt.

Mrs. G. E. Chamberlain and F. E. Gillon chose sides. Mrs. Chamberlain's side was winner, receiving candy. Mr. S. E. Gillon found the most and received a prize. All gathered in the Home Ec. building and enjoyed a picnic spread. At this meeting each member carried a gift for one of the following soldier boys: Byrd L. James, Jimmie Fite, Tony Chamberlain and Robert Gaston Sultan. Four boxes were mailed Friday morning. One new member was added to the roll. Mrs. Jim Allen Pryont. Meeting adjourned.

WOMAN CLUB TO SELL BONDS

The Woman's Club of Grenada and Grenada County will have booths for the sale of war bonds and stamps each Monday, Wednesday and Saturday. Buy bonds and stamps to aid your country and also save for that rainy day.

Exact Reasonable Rent

We urge our people, in their own interest, to be reasonable in increasing their rents.

Why do we say "in their own interest?" Because the U. S. Government has a law, if invoked, which will MAKE landlords be responsible in their rents, charges.

Surely Grenada people do not want the federal government entering this town with mandates concerning rents.

Let's all be reasonable by living and letting live and keep our business at home.

Isolated cases of exorbitant increases in rent come to our attention daily; but on the other hand, we hear cases more frequently where the landlord either maintains the same rental charges or makes only small increases.

The local inflation incident to the influx of huge masses of temporary residents is going to make things terribly hard for people who live on fixed incomes and occupy rented quarters without any undue and any justifiable increase in rent.

Anyway, as stated in the first paragraph, Uncle Sam has a law which can be invoked in defense areas whereby some of the increase ALREADY MADE will have to be modified.

Proceed With Caution

We have a good county and a good city. Both of our government units are in fairly good financial condition; the city has been going further into debt while the county has been climbing out. But, at that Grenada has not reached its borrowing capacity, and all its obligations are met promptly. We want these conditions to continue.

In the immediate future, this community faces the greatest pressure of population that it ever faced, yet this great increase in population is only temporary in nature. A great horde of workers and engineers will overwhelm us, but, by January first, most of them (except the doctors and dentists) will have departed. Then will come thousands of soldiers. These too will be temporary residents. The military camp will be self-feeding, self-housing, self-policing and, in most ways other than means of amusement, self-sufficient.

Our community's greatest problem will be caring for the thousands of workers and engineers who will be here, at most, a year. We cannot, therefore, build our city up!—water, department, sewers, schools, etc. for a strictly temporary increase in population—unless the federal government assumes the cost of this "increase in plant." Even at that, the ever recurring maintenance cost of this enlarged "plant" will have to be borne by the PERMANENT residents, such as you and I. To think that war will last forever and that this burgeoning spring will last forever will lead us to the same end that the hope of dollar cotton led the winter and millions of other cotton producers back in 1933-34.

If necessary, the City will have to employ more policemen. But the increased costs should be sufficient to pay the salaries of the policemen. The other necessary addition to our city "plant" should be paid for by the city (or the agency, the federal government) which bears the necessity for such increase upon us.

For the city and county to go on a wild spending spree with borrowed money would wreck the established standards of this community when the war is over.

Police Judge For Grenada?

While this is being written before our esteemed ex-Mayor, Hon. Robert William Sharp, is buried, it will not be published until Thursday. Before there can be any chance that we are biased in the matter, we hope that the City Council will exercise its legal prerogative to pay the next Mayor a nominal sum, and that the City Council will select some good, level-headed man to serve as Police Judge, thus relieving the head of the city government of the heavy duties of trying the greatly increased number of cases that will be incident to the huge impending increase in our urban population.

The duties of the Mayor of an army camp town, as Grenada will shortly be, are such that a great deal of personal sacrifice will be necessary if these duties are properly done. The next Mayor should be, if it is possible to secure such a man, a man who is financially independent; one who is not beholden to any group; one, if you please, who cares nothing about being Mayor after the rush is over. Such a man, if available, would not have time to waste upon the trying of cases of disorderly conduct, bootlegging, crap shooting and such things. While we do our best in advance of getting such a man, we cherish the hope that we will experience a miracle and get one.

In any event, let us have a Police Judge to try the cases and a mayor to serve as executive head of the city government. Let it be arranged to pay the Police Judge a good salary, and enact such ordinances as are necessary to have all costs revert to the City treasury.

A great deal depends upon the man to be elected to succeed Mr. Sharp, and a great deal depends upon the man who should relieve the mayor of his ex-officio duties of Justice of the Peace.

Me and the U. S. A.

Bilbo, Dickey and Ford will soon run a race to see which can get a telegram to Grenada first.

UNDER THE MAGNOLIA TREE

By Herbert B. Allen

My charming and talented young friend, Dorothy Whitaker, writes me frequently from All Saints' College in Vicksburg. Her recent letters have been liberally interspersed with tantalizing references to the beauties of early Spring in Mississippi. The dogwood and willow trees on the attractive campus at All Saints must be attractive indeed. Dorothy's letters always induce a mild nostalgia for Mississippi.

What person who has lived in the old Magnolia State, and has vanished into the outer darkness (the north), fails to carry in his heart an abiding warmth of affection for the many things, the many places, and the many persons in Mississippi that remain ever glamorous in his memory?

The vivid recollection of immaculate magnolia blossoms around Port Gibson; the wistful songs of gloomy whippoorwills singing disconsolately to the Southern moon on a summer night; the enchantment of driving under the Spanish moss draped archway near Natchez, in the cool of the evening.

The inspiring vista of endless miles of young cotton plants, arrayed in military precision, around Yazoo City; the exhilarating perfume of the piney woods, carpeted with coy violets, around Laurel; the melodic choruses of negro spirituals, wafted on the night breeze around Macon.

The gorgeous gardens of Governor White's home, in Columbia; the black and silver of the surf breaking on the Gulf Coast, on a moonlit night at Pass Christian; reveries of the intangible glories of the Confederacy, at ante-bellum plantation mansions throughout the state.

The zestful tang of Southern cooking at its delicious best, in Senatobia; the golden grandeur of spectacular sunsets over the Delta lands, as seen from the hills overlooking Grenada; the tranquil dignity of Old Man River, winding his timeless journey to the sea, bowing majestically past the Mississippi levee.

All of these facets of the jewel called Mississippi are not experienced today, merely to be forgotten tomorrow. The Land O' Cotton has a magnetic charm, a warm enchantment, and a natural fascination all its own. Mississippi is, indeed, the land of the free and the home of the brave—and the beautiful!

From the Governors down, I have received most kindly treatment from Mississippians. For them all I retain fond memories; and it is my earnest wish that at this Springtime in Mississippi, there may be Springtime in the heart of every son and daughter of the old Magnolia State.

Some idea of the development of modern Japan may be gained by noting the great changes taking place in the capitol city of Tokyo. In the year 1900, Tokyo had a population of 1,500,000. By 1940 this number had grown to slightly over 7,000,000. Our own New York City is almost a miraculous record.

As Tokyo has grown rapidly since the war with China commenced, it is possible that its population is now greater than that of New York City.

Of great significance are the following figures: Tokyo has 22 universities, with 47,000 students. There are in addition, 72 professional schools, with 52,000 students in Tokyo. As long ago as 1927 there was less than one percent of illiteracy in Japan. When the difficulties of the Japanese language are considered this is almost a

interesting to note is the record of the ten largest American cities. Between 1880 and 1940, the industrial cities of Philadelphia, Cleveland, Boston and St. Louis lost population; Chicago and Pittsburgh remained practically stationary; Detroit, Baltimore and New York City made gains of from 3 to 7 percent, and Los Angeles gained 22 percent during the ten year period.

Improvements in automatic machinery, labor saving processes and methods, and the unemployment they entail, play a large part in retarding the development of the great American cities.

When an army bomber was recently flown across the Atlantic in less than seven hours, it reminded me that the United States Army used to take seven months to travel between the Mississippi River and California, over the Santa Fe trail.

Just to remind you. The first transcontinental flight in this country was made in 1911. In that year C. P. Rogers left New York City on September 17th and arrived in Pasadena, California on November 4th. His actual flying time was eighty-four hours, two minutes. Times have changed!

And speaking of times changing, think of the changes that have taken place in Uncle Pink Horton's lifetime. Uncle Pink, you know, is a nonagenarian. That does not mean that he refuses to eat possum, that he goes to bed with his boots on, or that he refuses to take his chili tonic—not wh' Auntie is around! It merely is an easy way of saying, in ONE word, that Uncle Pink is over ninety years of age.

Uncle Pink can remember when he had two black slave boys to play with him, and to keep him out of mischief. In other words, he can REALLY remember way back when.

But you don't have to go back to the 1850's to remember great changes. Young blades like Colonel Hoffa (Uncle Will to me) can tell you about some remarkable changes of recent times. Our capitol city, Jackson, was a sleepy, mosquito bitten town of only 7,000 population in the year, 1900.

When the Mississippi State Legislature met in 1900, it appropriated \$6,000,000 (yes, six thousand dollars) for the maintenance of the entire Mississippi National Guard for the entire year. That is the present pension for a retired major general for just one year!

Congress is considering another military appropriation of nineteen billion dollars. I cannot describe the value of nineteen billions; but I can give you a rough idea of the value of just ONE BILLION DOLLARS.

One billion dollars is five times the amount of money on deposit in all the banks in Mississippi. One billion dollars is nearly EIGHT times the value of the crops on all the farms and plantations in Mississippi. General Sherman had the right word for war. It is hell! hellish expensive too.

PROBY-HALL

A wedding of interest in Mississippi was solemnized on April 2nd when Miss Katherine Hall, daughter of Mrs. R. W. Hall and the late Dr. Hall, of Clinton and Jackson, Miss., became the wife of Lt. Lucian Cleon Proby, of Grenada and U. S. Army Aviation Corps at Savannah, Ga. They were married at the Baptist Church in Waycross, Ga.

The bride, a senior at L. S. U. is a beautiful and popular young lady, having the distinction of being "Miss L. S. U." and band sponsor for the college band. Her father the late Dr. Hall, practiced in his home town of Clinton also maintained offices in Jackson, Miss., where he specialized.

The bride has many friends in both Clinton and Jackson, who will learn of her marriage with interest.

Lt. Proby graduated from Grenada High School, Mississippi College at Clinton and later, after entering the aviation services of his country stationed at Brookfield, Texas, was graduated and received his commission there early this year.

The young couple will reside in Savannah for the present.

HAILE-THOMAS

Mrs. Myrtle Thomas, of Grenada, announces the marriage of her daughter, Mildred, to Mr. James Sulton Haile, son of Mr. and Mrs. T. P. Haile, of Gore Springs. The marriage took place April 4, 1942.

Mrs. Haile graduated from Grenada High School and is now employed by the Mississippi State Forestry Commission while Mr. Haile is a graduate of Gore Springs High School and is employed at the Grenada Industries, Inc.

The young couple will make their home with Mr. and Mrs. Jeff Bowen south of Grenada.—Contributed.

Rev. C. S. Liles returned home Monday from Florida where he attended to business affairs.

Whyte Whitaker, Jr., Ralph Davis and Heck Lane, Jr., left on No. 4 Monday afternoon to return to Camp Bowie at Brownwood, Texas. They were at home twelve days.

Ole Man Mississippi says

It's a heap better to get up a sweat over something worthwhile like a victory garden than to wear your patriotism thin jawing about what the other fellow ain't doing.

The Mississippi Beer Industry is working its Victory Garden, too! It cultivates the law-abiding beer retailer and weeds out the few who dare to break the law.

YOU CAN HELP—buy your beer in wholesome, law-abiding places—If you see any law violations report them to your officers, or to this Committee.

Good morning, Mayor Doak.

Those who wish a County Health Unit established in Grenada County at a cost of about \$7,500.00 per year to the county, are going to have to convince the "country" supervisors, Chamberlain, Strider and Elliott, that this expenditure will be good for the people of their respective beats. They are not beholden to the people of Grenada. Cussing those fellows and saying they are short-sighted will do no good whatever.

It is First Class Private Frank Rose now. He spent three days with his parents in Grenada this week, but had to return to Keesler Field quickly.

Hamp Weir, anticipating a trouser shortage, has had the seat of his britches vulcanized.

Speaking of the Ground Hog, Sax Weir suggested that, inasmuch as Lon Thomas had made a good mayor of Elliott, and inasmuch as he was going to have to vacate, Lon be made Mayor of Grenada. If Lon will not have it, says Sax, draft Hugh White. To the latter, we object as he might be useful as governor.

Sgt. Hitt is now clerking for Tommie Rose.

The City of Grenada and the County of Grenada, like individuals in Grenada, are going to have to be careful lest they overextend themselves. This camp, like 40 cent cotton, will not last forever.

In our opinion, it is vitally essential that the next Mayor who will be executive head of a community of 15,000-20,000 people, should not have to employ his time trying crap shooters, whiskey peddlers and drunks. The City Council should employ a good, honest man (even if he is not saturated with law) as Police Judge, pay him a decent salary and let the costs go to the City Treasury. The City Treasury will not feel the effects of local prosperity, however great, for at least 18 months, and its only way to get extra money will be through the cost mill.

It is, of course, necessary to elect a new mayor since the untimely death of Mayor R. W. Sharp. We humbly suggest that the new mayor, whoever he may be, be paid a decent salary, but that the City Council appoint some good man - like Squire McKibben - to be Police Judge at a decent salary, and that the costs go to the city treasury.

Craig Mullen has been discharged from the list of borrowers and has become a new subscriber, having enlisted several weeks ago. He is a gentleman farmer of Holcomb, like Ed Holcomb, Volney Nason, and Fulton McRee.

We propose to give first priority in printing to the old customers of Grenada. Very likely we are going to have more than we can do if Grenada expands as expected.

Very likely the City Council is going to take cognizance of the elevation in rents and raise the assessed value of rental property which has advanced greatly in revenue.

Nobody can ever say that I said which of our beloved Ferdinand Club members was called horsey. In fact I do not know what horsey means.

A lot of towns are naturally jealous of Grenada, for the reason that Grenada is to have an army camp, a shell finishing plant and a dam, in addition to the many other things that we already have.

Another soldier with Uncle Sam's forces has been added to our list. We welcome Pvt. Chester Mitchell who took out a six month's treatment.

The hearts of other mothers bleed with that of Mrs. J. W. Willis, who has not heard from her son, believed to be in the Orient, in many months.

The old lady quarreled with me because I sat on our front porch with my shoes off. Hell, I am the oldest resident of South Street except Frank Gerard. I am at home there.

Sugar rationing and tire rationing are just the beginning. In 12 months time, there is no telling what we will have to do without.

Winning this war is the paramount issue today. Other matters, that can rest, should be allowed to rest.

Candidate (not for Congress, the Senate or any political office) James H. Hooker, has been added to the mailing list. He is seeking a commission at Fort Knox, Ky. Best luck, old man.

John Rundle, Pennsylvanian In Dixie

(By Herbert B. Allen)

"Neither do men light a candle, and put it under a bushel, but on a candlestick; and it giveth light unto all that are in the house." Matthew 5:15.

Few men whom I have met in recent years have impressed me as being so stimulating and inspiring as that Christian gentleman, and successful builder of character, Professor John Rundle, the perennial Superintendent of Grenada City Schools.

Seldom have I attempted to write about a person of whom I know so little, for Mr. Rundle is extremely retentive respecting his accomplishments.

This is so rare a characteristic among Grenadians, that of itself it would warrant focusing special attention upon Mr. Rundle.

Of necessity, I must write only from those impressions gained in casual conversations with him; both too brief and too infrequent - and from the much more eloquent results of Mr. Rundle's long service in Grenada.

JOHN RUNDLE

In reply to my inquiries as to when

Strong characters are universally admired. A man may oppose me at every point of the intellectual compass. But let him hold his opinions and principles without prejudice or dogmatism; let him support his con-

victions with forceful logic and an open mind, and I hold that man in high esteem, regardless of any differences of opinion.

John Rundle is such a man, and he has been an inspiration and a stimulating example to me personally. And add to those traits the characteristic of being utterly straightforward; for that cardinal quality of Mr. Rundle is stamped upon my memory.

JOHN RUNDLE SAYS EXACTLY WHAT HE MEANS - AND HE MEANS EXACTLY WHAT HE SAYS.

In that supremely important

matter of being truthful, frank and candid, Mr. Rundle stands in striking contrast to many prominent personages in Grenada.

Mr. Rundle's high code of personal honor and his high principles have long been an eminent model upon which the young people of Grenada might pattern their own characters. That is the root, and the branch, of his great influence in Grenada.

The great New England philosopher, Ralph Waldo Emerson, wrote that: "The world is founded on thoughts and ideas - not on cotton and iron." In this age of Henry Ford and Adolf Hitler, I sometimes wonder if that is still true.

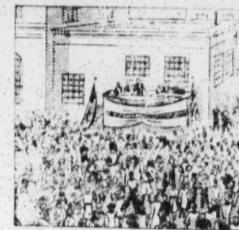

John Rundle's career has certainly been founded on thoughts and ideas, successfully translated into energetic and persevering action. In his case, I would carry the words of Emerson

just one step further. John Rundle's career has been based upon thoughts and ideas - plus IDEALS. And his fine character and influence are grounded upon the fact that his thoughts, his ideas, and his ideals are not confined to the four walls of his library.

John Rundle keeps his thoughts, his ideas and his ideals vitally alive, in the active daily service of his fellow men. They glow warmly in his heart. They glow brightly in his mind.

MEN OF WAR

General Electric men and women - thousands of them! Four typical scenes show the spirit with which they are tackling the grim job of producing for war!

1. Thousands of employees, only ten days after war declaration, gathered in mass meetings in most major G-E plants to pledge all-out war effort!

2. Almost 85 per cent of all General Electric employees signed up to buy U. S. Defense Savings Bonds totalling more than \$20,000,000 a year!

3. A sign chalked by a G-E worker on a big machine being built for war. The sign carried this challenge to fellow workers: "Remember Wake Island!"

4. And day and night - around the clock - G-E workmen keep steadily at the most important job of building weapons and supplies for U.S. fighting men!

General Electric believes that its first duty as a good citizen is to be a good soldier.

★ YOUR MERCHANT AND THE VICTORY CLINIC FOR BUSINESS ★ WORKING Together FOR YOU

NECESSITY has always been the mother of invention. The present emergency is no exception — American ingenuity and enterprise will bring forth new, war-born products and services to take the place of those discontinued because of war production. Even now, some are appearing, as if by magic — products that do not interfere with Winning the War — and yet enable you to have "extras" in addition to food and clothing.

In order to assist YOUR MERCHANT to know of such items, products and services IMMEDIATELY and to act as a clearing house for the interchange of ideas and suggestions, Mississippi Power & Light Company has established a Victory Clinic for Business. Contacts have been made throughout the nation so your merchant may know of each war-born product or service immediately. In this practical way, the Company joins with Mississippi Merchants in an effort to be of greatest possible service TO YOU during the months ahead.

FAIRY ALL-BRAN MUFFINS. EASY TO MAKE. DELICIOUS!

They really are the most delicious muffins that ever melted a pat of butter! Made with crisp, toasted shreds of KELLOGG'S ALL-BRAN, they have a texture and flavor that have made them famous all over America.

KELLOGG'S ALL-BRAN MUFFINS

2 tablespoons shortening 3/4 cup milk
1/4 cup sugar 1 cup flour
1 egg 1 1/2 teaspoons baking powder
1 cup All-Bran
Crisp shortening and sugar; add egg and beat well. Stir in All-Bran and milk; let stand 10 minutes. Mixture is taken up. Sift flour with salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400°F.) about 30 minutes. Yield: 8 large muffins 3 inches in diameter, or 12 small muffins, 2 1/4 inches in diameter.

ARE YOUR Bowels
Stubborn?

Then try kindness! First of all you can't expect them to act unless you give them a chance. Most people make sure to get 3 meals a day. But they never think of giving their bowels a regular time (daily) for evacuation.

If you've neglected YOUR bowels until they finally became stubborn and unwilling to act, ask your druggist for ADLERIKA. It is an effective blend of 5 cathartics and 3 laxatives giving DOUBLE action. Gas is expelled and bowel action follows surprisingly fast. After that, make up your mind to give your bowels 5 or 10 minutes' time at regular hour, daily. Your druggist has ADLERIKA.

(McClure Syndicate—WNU Service.)

IT WAS a scorching June morning on Greenwood campus, and hot and cross behind a great rolltop desk, Dr. Mary James struggled with a pile of French examination papers. Ridiculously young and small she looked; only shell-rimmed spectacles suggested the Ph.D., and these she hastily pulled from her nose as a gay whistle and a shout of "How's for a swim, Mary!" brought her to the window.

"Oh, I'd love to," she cried to the girl and man in the courtyard below, "but I have to finish these fiendish F3 books by noon."

To all of their temptings she shook a reluctant head, and the youngest gym teacher and the assistant professor of economics had finally wandered off.

"Imbecile!" she scolded herself. "Why not admit what the whole college has seen for months? Well, why not? She's younger and prettier."

About half an hour later, an unusual amount of calling and rushing about for so quiet a corner of the campus, brought Mary James again to her window. "What's happening?" she called to a group of chattering freshmen.

"Oh, Dr. James, such excitement!" They all answered at the same time. "Dr. Hunter hit his head diving in Ramsey Pond and Miss Simpson dived in and rescued him."

All that day and through the long summer evening, Greenwood had just one topic of conversation. It seemed to be renewed as each newcomer arrived who didn't know about it.

To escape the maddening chorus, Mary James shut herself into her room and with clenched teeth pencilized her way through a great pile of French translations. But one part of her mind was thinking: "Why wasn't I born an athlete? If Allen were drowning I'd stand and recite French."

Ten days later, at the end of the hottest commencement day in Greenwood's history, two of the gowned and hooded faculty members paused in the rotunda of College Hall.

"Mary!" cried a very flushed young man. "Where have you been keeping yourself?"

"Why, hello, Allen." She managed to make it very casual. "Are you quite all right again?"

"Of course I am," he sounded savage. "Never was anything the matter with me but a bump on the head. Of all the fuss. I say, let's duck Senior Reception and go for a swim."

After they had splashed about on the shallow edges of the pond for a while, Allen struck out with mighty thrashing and swam once, twice and a third time around the little lake.

As Allen rose from the board in a graceful swan-dive, Mary struck out manfully for the deepest spot in the pool. A score of strokes so tired her weak muscles, that it was easy enough to sink beneath the surface; but it required courage not to call out until she had gone down and risen a second time. She managed one choking, sputtering scream of "Allen!" then the green waters closed in around her and she thrashed about madly in sheer terror. Down, down, down—utter darkness, and a queer throbbing in her head.

"Mary, Mary. Open your eyes." She lifted wet lashes to find Allen's anxious face bent over her. "Darling—are you all right?"

"It was frightfully silly of me, Allen," she murmured. And, shamelessly, she shut her eyes again just to feel the quick tightening of his arms about her.

"Mary—if anything had happened to you! I've known for months that I loved you, but never before, how much. I haven't dared to speak, because you seemed scarcely to notice me. Do you think you could learn to care for me—a little?"

"Perhaps, just a little," she smiled up at him. "After all, you saved my life, and it would be most ungrateful . . ."

"That's out!" Allen pulled himself abruptly upright. "It's not gratitude I want. Please forget all about it now—or you'll be hating me inside a week. Don't I know? I've never felt such a fool in my life as I have these last few days. I wasn't really knocked out at all; just stunned for a minute. Jean's been a life-saving instructor all winter, and by the time she'd tried all the different holds on me and knelt on my chest for good measure I was ready for the infirmary!"

He caught the twinkle in Mary's eyes and acknowledged it with a shame-faced grin. "Most unsporting of me, I know," he admitted. "Of course I've kept quiet around the campus and played the grateful victim to my best ability, but I had to let it out to someone. You won't tell?"

"If," said Dr. James demurely, "if you'll get on with that proposal of marriage you seemed about to make a while back, I can promise as your future wife to keep your secrets forever."

GROWING TENSION WITH FALSE LEADERS

LESSON TEXT—Luke 11:37-48, 52-54.

GOLDEN TEXT—He that is not with me is against me; and he that gathereth not with me scattereth.—Luke 11:23.

Opposition to Christ and to Christian teaching has come down through the centuries practically unchanged. Hence, we find in Christ's dealings with the enemies of His day helpful indication of what may be done in our time.

It is sad to note that the chief opposition came from those who professed to be religious leaders. It is expected that the world, the flesh, and the devil should fight God's truth, but one might expect better of those who profess His name. The difficulty is that there is only profession, with no real life.

I. Hypocrisy Unmasked (vv. 37-44).

The Pharisees professed great interest in the observance of religious laws, but their concern was for the outward appearance, while God judges the heart. First we note a false profession of cleanliness.

Christ came to the Pharisees' table with clean hands, but He had not observed all their ceremonial washings. When rebuked He struck home with terrific force at the heart of the whole matter (v. 39); namely, that inward filthiness of heart which often makes folk meticulous about outward cleansing. This leads to a substitution of technical observance of the letter of the law that ignores love and judgment (v. 42), which are so precious to God. There can be a dead, dry, and technical orthodoxy which entirely misses the point.

But worst of all is the covering up of spiritual death (v. 44). Sometimes we speak of those who are "dead and don't know it," and that may actually be true spiritually. There may be death within and yet a brave and sometimes self-deluding outward show of life.

II. Theological Deadness Contended (vv. 45-52).

The lawyers of that day were those learned in the Mosaic law, hence were really the teachers of law and their concern was for the outward appearance, while God judges the heart. First we note a false profession of cleanliness.

First, they were guilty of heaping upon others burdensome requirements which they did not themselves keep, and which they did not help the people to keep. There are such teachers today who set up standards they do not themselves observe, a sort of signpost pointing the right way, while they are not themselves going that way. Then there are those who present high ethical standards without the spiritual dynamic needed to live up to them. To tell a man to be good without telling him of the Saviour who can make him good is mockery.

Then, those of Christ's day were condemned for hating God's witnesses. They were willing to build sepulchers for the dead prophets (killed by their fathers), but were not willing to hear the living prophets. How true to life that is! The very ones who hate and hinder those who are preaching God's Word, speak and sing smoothly of the faith of our fathers, and claim as their own the witnesses of a past day.

Christ also pointed out that while professing to interpret the law they obscured its meaning. They threw away the key to knowledge so that neither they nor their people could learn—and yet they continued to teach. Have not the false teachers of our day done likewise? They deny the integrity and authority of the only infallible Word—the Bible; they reject the deity of our Saviour, Christ, and yet they talk about being Christians and preachers of the truth. Woe be unto them in the day of God's judgment and wrath!

What happens when such men are condemned or unmasked? We find

III. Enmity Intensified (vv. 53, 54).

The scribes and Pharisees had two approaches: they sought vehemently to provoke Him to overspeak, and they craftily laid in wait for Him. The writer of these notes has seen both methods at work in our day. Liberals, or modernists as they are called, profess for the most part to a suave courtesy which makes them speak smoothly and gently about the conservative and orthodox believer or teacher; but if one only has eyes to see, there is often the strong and cruel hand of iron hidden under the velvet glove.

Whatever may be the approach, be assured of this—every effort to reveal false teaching in its true light, or to deal with hypocrisy in spiritual things will bring intensified opposition. Christ took it—we too can take it in His name and for His sake.

We Can All Be EXPERT BUYERS

In bringing us buying information, as to prices that are being asked for what we intend to buy, and as to the quality we can expect, the advertising columns of this newspaper perform a worth while service which saves us many dollars a year.

It is a good habit to form, the habit of consulting the advertisements every time we make a purchase, though we have already decided just what we want and where we are going to buy it. It gives us the most priceless feeling in the world: the feeling of being adequately prepared.

When we go into a store, prepared beforehand with knowledge of what is offered and at what price, we go as an expert buyer, filled with self-confidence. It is a pleasant feeling to have, the feeling of adequacy. Most of the unhappiness in the world can be traced to a lack of this feeling. This advertising shows another of its manifold facets—show itself as an aid toward making all our business relationships more secure and pleasant.

New Fabrics and Designs Meet Increased Demand for Blouses

By CHERIE NICHOLAS

outstanding interest this season, so watch bows! The long bishop sleeves are also important.

Two chic tailored blouses (to the right above and below in the group) are noteworthy. The model at the top is a real "find." It is a classic in tailored simplicity, with the charm of a material, corded marquisette, which is to be coveted not only for its prettiness, for joy of joy! It launders to perfection and as easily as a pocket handkerchief. This blouse is skillfully designed with a fitted waistband for either twin or over-blouse wear.

Exquisite handwork finishing off all edges in contrast color is a nice trimming accent for the beautiful tailored blouse in snowy acetate rayon crepe shown just below this blouse in the above illustration. Note the stud-fastened cuffs and becoming turn-back neck.

A giant jabot (jabots are conversation pieces this season) is very flattering at the front of the fresh spring blouse shown below to the left in the above picture. It is designed of fine rayon marquisette for smart suit wear.

Note the flowers in her hair. The wearing of flowers in this manner is an approved fashion, even in the daytime if occasion warrants.

An effect of fragile feminine charm is achieved by the use of filmy rayon chiffon and fine lace edging for the exquisite lingerie blouse shown above to the left in the illustration. It features the new and extremely smart long bishop sleeves together with a high-low ruffled neckline which may be fastened primly under the chin for suit wear or opened low for dress-up moments.

A blouse that should be included in every wardrobe for formal wear is the long-torso type of handsome rayon flower print in gorgeous colors.

(Released by Western Newspaper Union.)

Doubly Smart

Yes, you are seeing double! Matching boutonnieres of fresh flowers, one on each lapel, make a novel decoration on smart new suits this spring. This is a style recommended to out-of-town beaux who will want to wire greetings that will outshine local competition. If it's a single corsage she wants for her new spring costume, camellias, gardenias and combinations of variegated colorings are all good guesses. Daisies and violets, as pictured above, make charming twin lapel pieces.

The Flowers That Bloom On Your Dress, Tra-La!

Among the highlighted fabrics for spring, smooth surfaces predominate. The worsteds are particularly smart, as this spring is starting off in a decidedly tailored manner. Faille, wool jersey and knits continue strong.

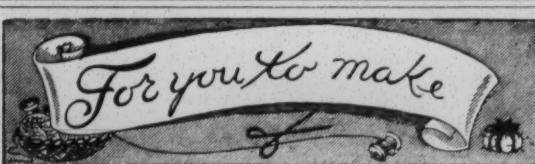

This season's prints glory in novelty and color. Important are the new butterfly prints, the lace-patterned types and gorgeous florals. Amusing, also, are the vegetable prints, cabbage roses in full bloom and the apple motifs. There are more plaids, stripes and checks than ever, and the "dotted" theme persists.

Bows Run Rampant Over Necklines and Pockets

Necklines are having a frilly time of it this spring. Jabots are as frothy and white as snow drifts, or fleecy clouds on a summer day. Collar and cuff sets in pastel blues or pinks are ever so good this season. There's also a rush for huge, softly tied bows or sprightly butterfly ties. Bows also trim pockets and cuffs and are posed at the shoulder. In fact, bows are apt to light anywhere on one's costume and be fashion-right.

Loose Curls

No tight curls, all extremely loose and very feminine looking, is the new fashion edict. Shorter bobs are assured, always with an easy-to-manage promise. Pompadour versions will continue to be worn and the "trick" is to wear your hat back to show the pompadour.

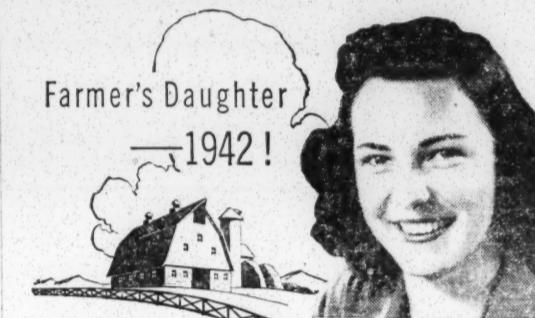

simple to do, you'll be proud of sheet, pillow case or scarf decorated this way.

Fast Driving

A recent study, made to determine the cost of operating an automobile at a low and a high speed, revealed that, when two identical cars are driven over the same 1,000-mile course, one at 25 and the other at 65 miles an hour, the latter consumes 60 per cent more gasoline and 800 per cent more oil and causes 700 per cent more wear on the tires.

EDITORIAL

We've been thinking about writing this editorial for a long time. Meanwhile we have become little by little more disgusted with the person or persons whom we're writing about. Grenada High School pupils, as you know, take pride in their front lawn. Mr. Rundie keeps a man working almost all the time to keep the campus in good condition all the year around. During a weekend several months ago, some person in a car rode up and down on the lawn. Of course it killed the grass and made noticeably ugly ruts. The person that did this perhaps thought herself or himself, pretty smart at the time. Why, they were the "life of the party" that night for doing such a bold thing. We think and hope these persons had awful consciences the next morning and that they'll try to do better in the future. Although the grass now has grown back, we still remember this cheap little incident. If these persons, whoever they are, knew what the majority of the fellow pupils feel about this, misdemeanor, they would do like the ostrich, bury their head in the ground!

TRACK NEWS

Our track team journeyed to Duck Hill Friday for the annual district track meet. Our boys and girls were in "tip-top" condition. Our boys mile relay team beat the record by 3 minutes. Several other records were broken. Rowe Rhett won more points than any other boy for Grenada; while Bette Cullen won more points than any other Grenada girl contestant. The results were disheartening for the local "tracksters" as Duck Hill won by one-half of a point. The score was: Duck Hill sixty and one-half, and Grenada sixty. Counting the points earned by the tennis team our total number of points was 70. The winners of the track meet will go to Cleveland Friday to determine North Mississippi's champion. From there the winner will go to the State meet.

BASEBALL GAME

Grenada suffered its first defeat of the season Wednesday afternoon when the Charleston boys knocked one more run than the local boys. The score was 6 to 5. Not all the innings were played because of unfavorable weather conditions.

The best play of the game was when "Pip" Kettle tapped the ball and trotted around the bases for a home run.

JUNIOR SENIOR BANQUET

The Junior-Senior affair is going to be April 14th at eight o'clock in the Community House. At this time the hearts of the Juniors and Seniors will soar to the highest. The Juniors are promising the best of food; the best speeches; and the best of entertainment in general. The invitations, elegantly written, are:

"A foolish Banquet the Juniors are giving."

Just to show folks we're glad we're living.

We want you there to aid in the fun. So foolishly accept and come on the run.

April 14, 1942

Community House

Fun starts at 8 p.m.

It is going to be on the order of informal Cafe society. The gals and boys are just going to wear their "Sunday-

go-to-meeting" clothes. Miss Owen is at the head of this "shin-dig", so you know there will be fun-a-plenty.

REMEMBER WHEN—

Mary Lou and Rogers went together, and were seen at every dance?

By the way—remember that there used to be a dance in Grenada every once in a while?

Mary Doug Honeycutt was "Cameo Simplicity" in a play and galloped down the auditorium aisle on a stick a few years ago while Fred Murray was shouting "Heigho Silver?"

Tommy Houston used to camp on Mary Lou's door steps?

Floyd Thelman had eyes only for Lou Avent.

Dot Talbert called herself "Sugar Bowl" Talbert?

Benton Keeton was Bernice's constant beau?

Frances Herring was squired around and around by Fred Hodges?

All the girls loved Benton?

Anne Duncan first came here and went with David Cutters?

Rowe Rhett came to town and all the girls were upset for weeks?

Lou Avent used to go 'round and 'round with Richard Rule?

Will Horton made the honor roll?

Anne Odlin went with Robert Trussell?

PLATFORM EVENT

Friday night here in our GHS auditorium district platform events were held in proper fashion. All the young speakers were gathered together and the contest started.

Lavern Wilson, last year's state winner, was given second place. The girl who rated above her came from Cotterville. Lavern's number was "Brother, Take a Bow."

James Thomas, our declamation entry, won over all the others and came out with first place. This speech was "The Monster in the Public Square."

Both Lavern and James will go to the state meet held at the University in the near future.

Congratulations!

DIRT

Come to the baseball game!

It was told on Rookie Moore that he wanted to play "Postoffice" at the basketball picnic. This suggestion was referred to the social committee.

Berta is equally proud of her new bracelet and her "Bunnz."

Three cheers for Grenada Drug for a new nickelodeon in the store.

"Marg" Green was seen at the flickers Thursday night with Hal.

Our track star, Jay Gore, had better watch out. The venerable Shy York escorted Mog Stanley during Easter holidays.

Poor Keeton of Ole Miss will have to employ a minister plenipotentiary on Margin Street. Rumor hath it that Gore is operating on two fronts.

The latest nicknames are: Skeeter Rose, Tick Patty, Flea Pleasant and Coots Rhett.

Lil' Donald has gone to Birmingham. Her Billy was home over the Easter holidays to cheer her up, however.

It is true that Margaret Green got an orchid, a box of candy, and another corsage for Easter. Such extravagance!!!

Booner and Berta threw a swell entertainment after the Band concert Tuesday night.

Corporal William H. Foster has been home on a ten-day leave.

What is this about Polly Richardson's having three dates for the Jun-

ior-Senior Banquet? Please spare the school. Had Scobey school program other two to some of the poor gals that don't have dates.

Frances Herring sings "Somebody else is taking my place" and really puts some sure "nuff" feeling behind it. She's been muttering about 1937 senior ring.

It seems that nine high schoolers came back from Greenwood in Roger's car Saturday. Ruth Morrow chaperoned the other eight who were, incidentally, Rowe Rhett, Rogers, Lynn, Giles, Larry, Brannon, Billy and Warren.

Next week we are going to come forth with all the Junior-Senior Banquet dir.

Guy Robinson still remains hero number 1 for the Freshmen.

Bernice still hears regularly from her army man.

Ask Dot (Sugar Bowl) about her newest.

Lou Avent stepped out with a certain Mr. Hickey both Friday and Saturday nights.

"Poor" Keeton.

The "Pass the Pensum Pappy" boys

in the Lower House and in the Senate are going to have a hard time getting elected, especially if the war is going badly at the time of election.

You and I have entrusted the fate of our nation to the members of Congress. They have permitted the country to get into one helluva fix IN SPITE OF an unprecedented expenditure of tax money. They and they alone are responsible. You and I have been "sold down the river" by our elected leaders in Washington. Your boy and my boy, or one of them, may have to pay the supreme sacrifice because Congress fiddled while the world was at fire. As far as I am personally concerned I do not expect to vote to return a damn one of them to Congress. We could not do worse if we tried to do worse.

As for the location of the camp in Grenada - whether YOU consider it an asset or a liability - not one single member of Congress had any more to do with the location than you or I did.

Congress has made Nero look like a little lad playing a jewsharp: Nero fiddled while just one city, Rome, burned, while Congress fiddled while half of the world was on fire.
